

1969 LOOK WHAT'S HAPPENING AT

LOOK WHAT'S HAPPENING AT...

The fiberglass bottom on any boat gets a lot of wear and tear. It takes pounding from choppy water and heavy waves, scraping and bouncing from beaching and trailering, and an occasional hard knock from underwater objects.

Obviously, that boat bottom needs a lot of special attention when it's being designed and built if it's going to make its future owner happy. This is where Alpex "Hull Power" comes in.

We feel that fiberglass alone shouldn't be used for run-about boats because the continued flexing of a boat during use could eventually weaken it to the breaking point. Extra thick layers of fiberglass would eliminate this fatigue factor, but that would make the boat impractically heavy.

So, Alpex marine designers developed a bottom that

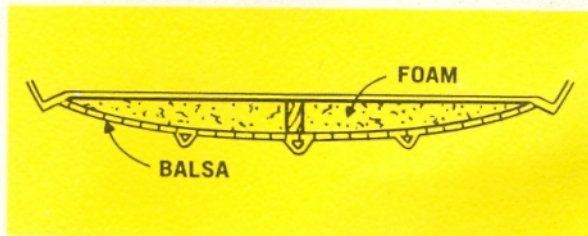

would be very strong, impervious to fatigue from flexing, easy to repair in case of puncture damage, and much quieter than ordinary hulls. We achieved this "Hull Power" with Balsa End Grain Core construction.

The Balsa End Grain Core is just that: end grain pieces of balsa bonded together in a checkerboard pattern and sandwiched between layers of fiberglass. By using end grain pieces of balsa, we were able to achieve greater compression and shear values and, therefore, a more impact resistant hull than is possible with most other types of construction.

By using balsa for this core we achieved the extra strength at a weight saving. As an added bonus, the balsa core also serves as flotation. (This is in addition to the regular foam flotation in Alpex boats).

The features of Alpex "Hull Power" don't end there; the bottom also has a very thick layer of gas and oil resistant expanded foam flotation. The foam flotation that we use has a lower water absorption rate than other flotation materials, so it was obviously what we wanted in our boats.

This is "Hull Power." We feel this design gives you the best built boat on the market! **That's** what's happening at (Aluma Craft) Alpex.

ALUMINUM BEL MARA RUNABOUT

The Bel Mara is the playboy of the runabouts. It's got good looks, top handling, and a lot of room. Lively, too — built to take up to 75 horses.

OPTIONAL EQUIPMENT: Complete top in easy running slide track, folds aft.

COLORS: Jade Green and White or Yellow hull and deck.

ALUMINUM

C-15

CANOE

Maneuverability, stability and light weight make the C-15 an all-around favorite.

C-15 FEATURES: Special marine aluminum alloy . . . Non-skid, non-glare floor . . . Heavy duty stems . . . Tow eye . . . Extruded and reinforced thwarts . . . Center thwart carrying yoke . . . Satin finish.

OPTIONAL EQUIPMENT: Sail rig . . . carrying pads . . . Side mount motor bracket . . . Yellow, green or red paint . . . Indian trim.

ALUMINUM

CO-17

CANOE

The CO-17 — for fishermen or campers in a hurry. Double end design of a regular canoe for easy back paddling; and a wish-bone transom for quick access to fishing and camping spots. Light weight; big 1110 pounds* carrying capacity.

CO-17 FEATURES: Special marine aluminum alloy . . . Heavy-duty stems . . . Extruded and reinforced thwarts . . . Center thwart carrying yoke . . . Non-skid, non-glare floor . . . Foam flotation . . . Double ended for easy paddling, a feature no square stern can offer.

*Based on 6" Freeboard formula.

ALUMINUM

CATALINA QUEEN

RUNABOUT

The Queen of the fleet — This revolutionary aluminum tri-hull is sure to be an immediate hit with people who know their boats. She's made to get up on top of the water NOW — so you ride high and dry. And the tri-hull design will give you a firm, stable feeling you've never thought possible on the water. Treat yourself — to a Catalina Queen.

OPTIONAL EQUIPMENT: Hour meter . . . Speedometer . . . Windshield wiper . . . Fire extinguisher . . . Complete top in easy running slide track, folds aft.

COLORS: Jade Green or Yellow.

ALUMINUM

TAMPICO 1500 RUNABOUT

Take a warm, sunny day; set yourself in a Tampico; and really live! The Tampico is the smartest looking, best performing boat in its class you'll find anywhere.

OPTIONAL EQUIPMENT: Complete top in easy running slide track, folds aft.

COLOR: Yellow.

CS14 FEATURES: Constructed from special marine aluminum alloy . . . Non-skid, non-glare floor . . . Heavy-duty stem . . . Bow eye . . . Satin finish.

COLOR: Satin finish. Also available in dead grass or camouflage finish for hunting, yellow, green, red or with Indian trim.

QUETICO FEATURES: Carrying yoke and pads . . . Constructed from special marine aluminum alloy . . . Non-skid, non-glare floor . . . Heavy-duty stems . . . Tow eye . . . Extruded and reinforced thwarts . . . Satin finish.

OPTIONAL EQUIPMENT: Side mount motor bracket . . . Sail rig . . . Indian trim.

CO-15 FEATURES: Constructed from special marine aluminum alloy . . . Non-skid, non-glare floor . . . Heavy-duty stems . . . Tow eye . . . Extruded and reinforced thwarts . . . Center thwart is a carrying yoke . . . Satin finish . . . Double ended for easy paddling . . . Flotation, foam.

CO-15

CANOE

The wishbone transom on this model takes up to a 3.5 h.p. motor, yet it's double-ended for easy paddling — a feature no square stern canoe can offer.

OPTIONAL EQUIPMENT: Sail rig . . . Carrying yoke pads . . . Yellow, green or red paint . . . Indian trim.

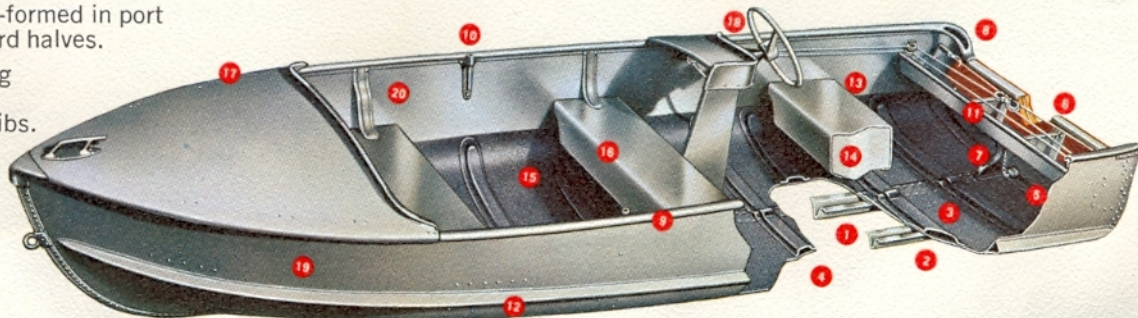

LOOK WHAT'S HAPPENING AT...

Trend Setting Features That Make Aluma Craft Aluminum Boats Your Best Boating Buys.

1. One-piece keel and stem, preformed to hull contours.
2. Bilge keels preformed of aluminum extrusions.
3. Hull stretch-formed in port and starboard halves.
4. Self-draining preformed transverse ribs.
5. Transom drain plug.

6. Super-heavy aluminum alloy transoms sandwiched between sturdy wood motor mounts which cuts down motor vibration and noise.
7. Cast-aluminum transom knee for extra support.
8. Custom-designed castings lock to gunwales for added rigidity, double as carrying handles.
9. Extra-heavy extruded preformed gunwales.
10. Cast-aluminum oarlock sockets with noiseless bearings.
11. Patented self-draining Aqueduct® transom.
12. Preformed spray rails.
13. Aluminum seats.
14. Foam flotation.
15. Non-skid, non-glare finish inside hull bottom.
16. No sharp corners.
17. Optional forward deck.
18. Optional steering and walk-through deck.
19. Non-glare satin finish.
20. Oar storage brackets.

ALUMINUM

CS-14

SPORT CANOE

The perfect answer for fishermen who like the best features of a canoe and a fishing boat all rolled into one. The sport canoe is light — only 90 pounds — so it can be used just like a regular canoe. But its wide transom — with 5 h.p. BIA rating — and wider beam for extra stability make it a great fishing craft.

ALUMINUM

QUETICO

CANOE

The back-packer's delight! 17 feet of sleek, easy paddling hull — with no exposed rivets to increase drag or shear. This 69 pound featherweight has built-in carrying yoke and pads for easy portaging. Heavy-duty stems and fast, stable hull make it a natural for white water. A true wilderness canoe.

OPTIONAL EQUIPMENT: Side mount motor bracket . . . Sail rig . . . Indian trim, yellow, green, or red.

DUCKER: A true duckboat. Only 64 pounds of special marine aluminum. It's camouflaged, draws less than three inches of water and is pointed at both ends for easy access to and from your blind. Reinforced for ice breaking, too. Noiseless oar locks, foam flotation and self draining decks complete this specialty boat. All you need are the ducks.

DUCKER OPTIONAL EQUIPMENT: Port side motor bracket . . . Camouflaged wooden oars . . . Dead grass or camouflage finish for hunting.

ALUMINUM

C-17

CANOE

17 feet of outstanding canoe — designed with the stability and carrying capacity of an 18-footer — over ½ ton.*

C-17 FEATURES: Special marine aluminum alloy . . . Heavy-duty stems . . . Extruded and reinforced thwarts . . . Center thwart carrying yoke . . . Non-skid, non-glare floor . . . Foam flotation . . . Satin finish.

OPTIONAL EQUIPMENT: Sail rig . . . Carrying yoke pads . . . Side mount motor bracket . . . Red, green or yellow paint . . . Indian trim.

SAIL RIG — The Aluma Craft sailing rig is attachable to all canoes and many fishing boats. If you love to cruise silently in the wind, the sailing rig is a must item. It's moderately priced and built for fun. It's available in blue and white sails, tubular steel mast and boom with a wood cross bracket, leeboards and rudder assembly. Adaptable on canoes from 15 to 17 feet and boats with up to 50-inch beams. Specify canoe model for proper attaching brackets.

FIBERGLAS

JAMAICA 1500

RUNABOUT

What's your water pleasure? Fishing? Camping? Sunbathing? Skiing? The Jamaica excels in all areas. It's a fleet-footed runabout; roomy open-deck fishing boat; and lounge-seated pleasure boat, all rolled into one. It's a tri-hull, too, so you get just the stability you need for such sports as skin diving.

COLORS: Burgundy with White hull, Yellow hull and deck.

FIBERGLAS

ALORA

RUNABOUT

The Go-Go boat. This smart, fast-stepping runabout is the perfect boat for the young or young at heart. Great for skiing. Ideal just to relax in. Big performance, little price.

OPTIONAL EQUIPMENT: Complete top.
COLORS: Red and white.

FIBERGLAS

JAMAICA 1700

RUNABOUT

Triple Treat Tri-Hull — Beautiful. Proud. Rugged. A real treat for any water sport. Her tri-hulls give the kind of stability fishermen look for. Her roomy interior is just the answer for cruising — camping. And her water performance is a skier's delight. Triple-Treat yourself — to the Jamaica 1700 Tri-Hull.

OPTIONAL EQUIPMENT: Hour meter . . . Speedometer . . . Windshield wiper . . . Fire extinguisher . . . Complete top in easy running slide track, folds aft.

COLORS: Jade Green with White hull or all Yellow hull and deck.

ALUMINUM
MODEL F7
FISHING

It's hard to argue with success. And the F7 has been successful. In fact, it's probably the most popular fishing boat in the world. It's tough enough to take years of hard use. It has a deep hull design — you'll ride high and dry, even in choppy water. And it trolls a straight, true track. Follow the lead of those who know — put yourself into the F7.

YUKON FEATURES: Two pair noiseless oarlock sockets . . . Self-draining Aqueduct® transom . . . Transom drain plug . . . Non-glare, non-skid floor . . . Oar storage brackets . . . Bow eye . . . Flotation, foam . . . Forward shelf . . . Satin finish.

OPTIONAL EQUIPMENT: Forward deck for forward steering and runabout performance . . . Windshield . . . Side steering deck . . . Steering . . . Aluminum oars . . . Convertible vinyl top . . . Dead grass or camouflage finish for hunting . . . Anchor cradle . . . Anchor.

MODEL FD FEATURES: Two pair noiseless oarlock sockets . . . Transom drain plug . . . Aqueduct® transom . . . Non-glare, non-skid floor . . . Oar storage brackets . . . Bow eye . . . Flotation, foam . . . Satin finish.

MODEL K FEATURES: Two pair noiseless oarlock sockets . . . Transom drain plug . . . Aqueduct® transom . . . Non-glare, non-skid floor . . . Oar storage brackets . . . Bow eye . . . Flotation, foam . . . Satin finish.

ALUMINUM
MODEL K
FISHING

If you like a fishing boat built to take big water, the K is your choice. Built to take hard use. Ruggedly built Aqueduct® transom adds extra strength to handle single or twin motors. Perfect for professional guides and big lake.

OPTIONAL EQUIPMENT: Forward deck . . . Side steering deck . . . Steering . . . Aluminum oars . . . Anchor cradle . . . Anchor . . . Dead grass or camouflage finish for hunting.

WARRANTY

Aluma Craft boats and canoes are warranted for workmanship and material for a period of nine (9) years. A written warranty agreement is attached to each Aluma Craft boat for the buyer's inspection before purchase. For further details, see your dealer.

FIBERGLAS

TRF 1500

FISHING

The perfect fishing boat has plenty of room for a party of fishermen, is rugged enough to handle big water, strong enough to take big motors for fast moving to different fishing spots, and is stable enough to take the weight of fishermen casting from the side. That's the TRF 1500; it's made for serious fishermen.

COLOR: Sea Mist Green.

FIBERGLAS

TSF 1400

FISHING

Die hard fishermen and Sunday afternoon cane polers alike find this the fishingest boat ever. Two aft corner seats make for easy motor operating from either side, and there's plenty of space for all your tackle. Built to take motors up to 40 h.p. If you like fishing, you'll love the TSF 1400.

OPTIONAL EQUIPMENT: Aluminum oars . . . Anchor . . . Anchor cradle.

COLOR: Sea Green Mist.

ALUMINUM

YUKON

FISHING

Dyed-in-the-wool fishermen demand something special in the way of a fishing boat for big waters — like the Yukon, a new favorite for Coho fishermen. It's roomy, tough, dependable — and it will take single or twin motors up to 50 h.p. Doubles as a runabout, too.

ALUMINUM

MODEL FD

FISHING

This husky, heavy duty fishing boat is the pick of most resort owners because it'll take years of hard, day-in-day-out use. Its 40 h.p. rating and roomy interior make it a top choice as an all around boat — just the boat for fishing, skiing, or skin diving.

OPTIONAL EQUIPMENT: Forward deck . . . Side steering deck . . . Steering . . . Aluminum oars . . . Anchor cradle . . . Anchor . . . Dead grass or camouflage finish for hunting.

FEATURES, O.B. & I/O: Ventilating windshield . . . Locking glove compartment . . . Mechanical steering . . . Lights, wired and fused . . . Deck hardware . . . Twin shank bow eye and ski tow eyes . . . Stabmatic® chines and cross link construction . . . Flotation, foam and balsa.

OPTIONAL EQUIPMENT, O.B.: Complete top in easy running slide track, folds aft, and is secured out of the way with snap-on boot . . . Ice chest console which includes armrest, beverage tray and table . . . 12 gallon gas tank.

OPTIONAL EQUIPMENT, I/O: Complete top in easy running slide track, folds aft . . . Speedometer . . . Hour meter.

ENGINES, I/O: 80 h.p. OMC or Mercruiser, 130 h.p. Chrysler (Volvo).
