## ▲ 15' QUETICO CRUISING

In the true tradition of the famous Quetico design, we proudly introduce the new Quetico

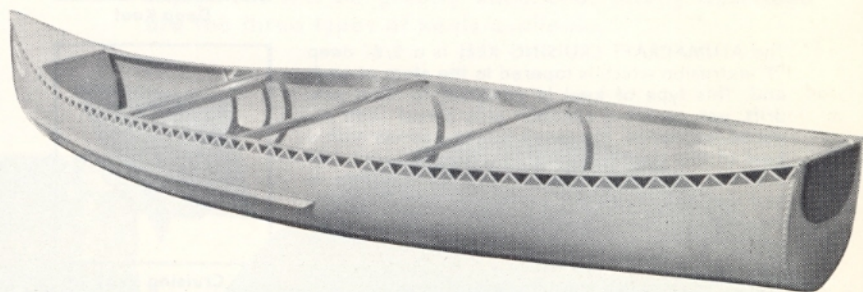

15' Cruising Canoe. Designed for maximum performance and lightness, this canoe proves to be perfect not only on the lakes but also for the avid canoeists who require a highly maneuverable canoe in fast, winding streams and rivers. This canoe is easy to portage, convenient to store and performs so well that one person can paddle it with ease. Available in standard weight 63 pound model or lightweight 56 pound model.

**CANOEING . . .** America's new-found FUN pastime. Canoeing is one of the best ways to not only enjoy the great outdoors, but is excellent exercise for developing that healthy, trim look. With Alumacraft's complete line of canoes you can choose the exact model to meet your specific canoe requirements and enjoy to the maximum the FUN of canoeing.

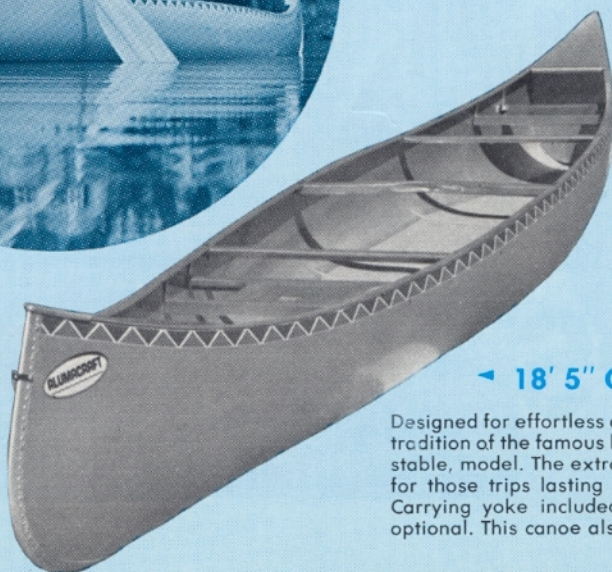

## ▲ 17' QUETICO CRUISING CANOE

This sleek 73 pound beauty has not only become the favorite of many of the country's largest canoe outfitters, but is considered by many avid canoeists to be one of the finest, safest, and easy-to-handle canoes on the market today. Our most popular and highly recommended canoe for all family use because of its easy portaging and high performance on rivers or lakes. Here's why: A unique double-tapered cruising keel is full depth amidships for straight tracking, high paddling speeds and stability in lake water. And because the keel tapers flush with hull at bow and stern, it makes handling in fast water remarkably easy. Has countersunk rivets in bow and stern stems, built-in carrying yoke and colorful Indian trim. Carrying pads optional. This canoe also available in lightweight, easy-to-portage 64 pound model.

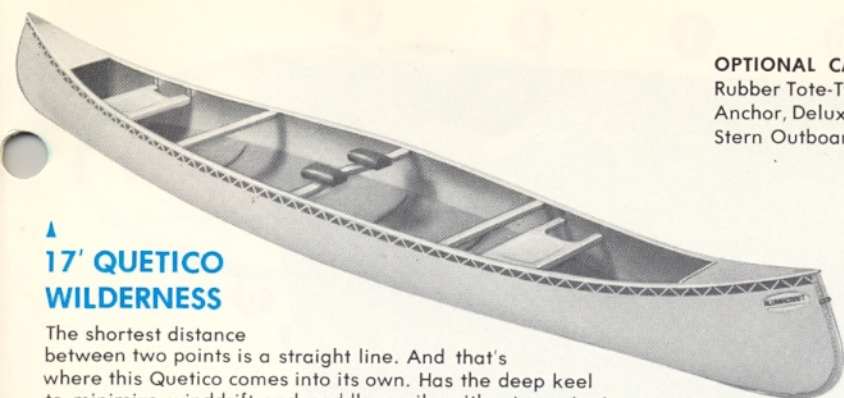

## ▲ 17' QUETICO SQUARE STERN

Designed for use with small outboard, the full-size spray-rails on this canoe keep you dry and comfortable. Light enough so even one person can cartop. You have the ideal craft for hunting, fishing or paddling all in one. Built-in carrying yoke is included for easy portaging. Painting and portage pads optional.

## ◀ 18' 5" QUETICO 185 CRUISING CANOE

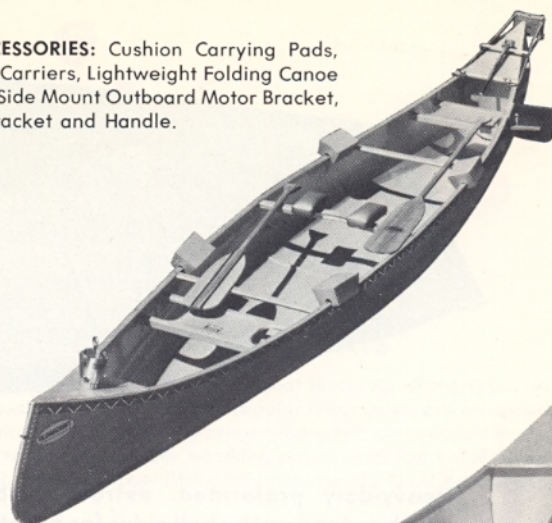

Designed for effortless cruising is this sleek, new 18' 5" easy paddling hull. In the long tradition of the famous line of Alumacraft Quetico canoes, this is also a fast, yet very stable, model. The extra length and added capacity allows more comfort, especially for those trips lasting several days. You can even bring your children and pets. Carrying yoke included as standard equipment, portage pads and painting are optional. This canoe also available in lightweight, easy-to-portage 71 pound model.

## ▲ 17' QUETICO WILDERNESS

The shortest distance between two points is a straight line. And that's where this Quetico comes into its own. Has the deep keel to minimize winddrift and paddle easily without constant correction. Even on a windy lake, this canoe is so easy to control it makes beginners look like experts. Built-in curved carrying yoke and colorful Indian trim standard. Carrying pads optional.

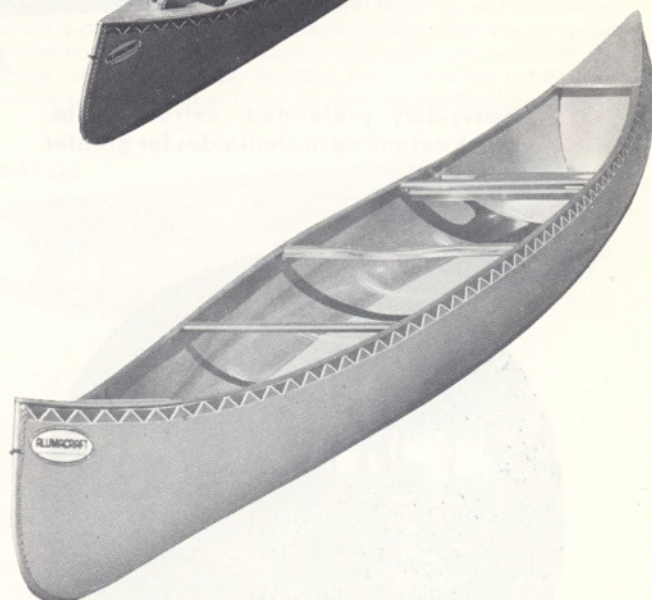

**OPTIONAL CANOE ACCESSORIES:** Cushion Carrying Pads, Rubber Tote-Type Cartop Carriers, Lightweight Folding Canoe Anchor, Deluxe Paddles, Side Mount Outboard Motor Bracket, Stern Outboard Motor Bracket and Handle.

## ▲ 17' CAMPER OUTBOARD 17

This versatile canoe can be used in many ways. Using the unique wishbone transom which is above the waterline, outboards up to 3.5 hp. can be run. Yet, this 17-footer paddles with the ease of a double end canoe. Painted Dead Grass or Camouflage, it makes an ideal duck boat. CO-17 weighs just 92 pounds. Paint optional.

**CAMPING . . .** When it comes to carrying large cargoes, handling rough water or reaching back country campsites, nothing can match a canoe. Take the **Alumacraft CO-17** as an example. It features a wider hull than traditional canoe designs to boost carrying capacity over 25%. This means packs, tents, and other gear can be carried without sacrificing stability and handling ease. The Camper Outboard Canoe also features the deep keel running full length from bow to stern. Increases straight line tracking, no matter what the choice of power—paddling or outboard.

## ▲ 17' QUETICO WHITEWATER

This extremely popular Quetico Whitewater Canoe has, in a very short time, become a legend because of its great performance and ruggedness even under adverse conditions. Equipped with rugged shoe keel, countersunk rivets in keel stem area, two extra ribs for increased strength and durability. Add these features plus the tough heat-treated .050 gauge 6061 marine aluminum alloy, the owner of a Whitewater Canoe has truly a superb craft. Weighs only 76 pounds, carrying yoke standard, pads and painting optional.

## 16' YUKON II MODEL ▶

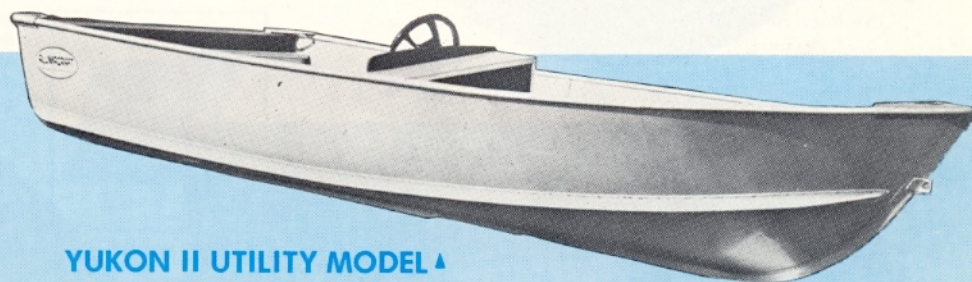

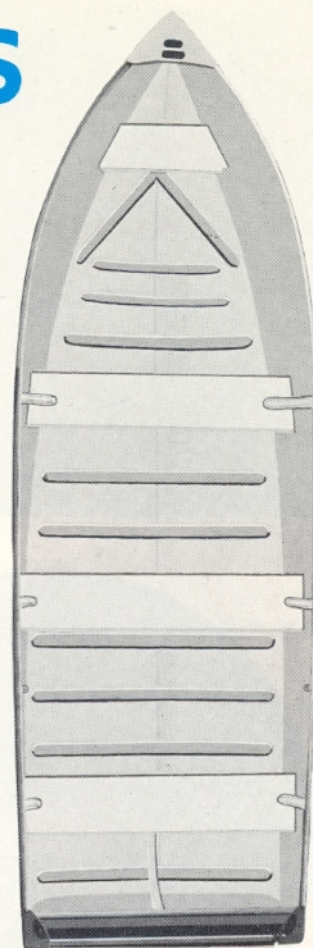

Newest addition to the **Alumacraft** fleet, this sleek 16' beauty combines performance with ample size to give fishermen the ideal 16' aluminum fishing boat they have been looking for. Available with either 15" or 20" transom. Included as standard equipment is **Alumacraft's** famous Aqueduct tray which adds safety when encountering rough waters. With a large assortment of easy-to-install optional accessories, any fisherman can custom-equip this boat to fit his own requirements. Yukon II with 15" transom rated for 30 hp., 20" transom model rated for 40 hp. and 20" transom utility model rated for 50 hp.

**Optional Accessories:** Forward Storage Deck, Side Steering Deck, Cable or Mechanical Steering, Anchor Cradle, Wood or Aluminum Oars, Custom Swivel Chairs.

## ◀ 14' LAKE MASTER MODEL F-9

Here's a 14-footer with the beam and hull depth serious fishermen demand. A new soft chine, V-bottom hull smooths out rough, choppy water and makes Lake Master the ultimate **Alumacraft** 14' fishing boat. Choice of 15" or 20" transoms with **Alumacraft's** Aqueduct tray. Handles outboards up to 30 hp.

**Optional Accessories:** Mechanical or Cable Steering, Side Steering Deck, Forward Storage Deck, Anchor Cradle and Anchor, Remote Control Bracket, Wood or Aluminum Oars, Custom Swivel Chairs.

## YUKON II UTILITY MODEL ▲

With factory installed mechanical steering and steering deck, the F-9 Lake Master and Yukon II make an ideal utility boat for fishing, water skiing or runabout fun. Utility models F-9 and Yukon II available only with 20" transom. The utility model F-9 is rated for 30 hp. and the Yukon II utility model is rated for 50 hp.

## ◀ 14' FISHERMAN DELUXE MODEL FD

Fishermen and resort owners have made the husky FD top choice when looking for a rugged fishing boat. And no wonder, it's big, brawny and built to stand the challenge of season after season of hard use. Features Aqueduct transom tray which automatically catches and drains accidental backwash.

**Optional Accessories:** Forward Storage Deck, Side Steering Deck, Cable or Mechanical Steering, Anchor Cradle and Anchor, Wood or Aluminum Oars, Custom Swivel Chairs.

# jon boats

## SUPERIOR LINE JON BOATS

These deeper and wider models provide this extra room for comfort, safety and stability. Lightweight and easy to lift with two stern and a bow carrying handle. The deep sides and wide bottom provide the perfect boat for float trips and weekend outings. Ideal for large lake use as well as river boating.

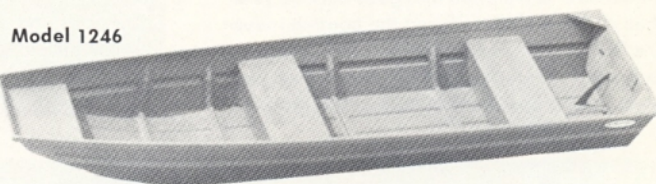

## COMMERCIAL LINE JON BOATS

Alumacraft's Commercial Model Jon boats feature .070 gauge aluminum hulls (except 1457C Model). Two transom knee castings and heavier gauge ribs. This is a boat you will be proud to customize as your very personal boat as it is built to be your fishing companion for years of fishing fun and adventure.

## DELUXE LINE JON BOATS

A very popular fishing and duck hunting boat featuring all the standard Alumacraft quality features. The two regular line models are equipped with automatic bailer. High-quality primer and vinyl paint used on entire hull. These are extremely easy handling prams with low horsepower requirements. Stern and bow lifting handles are standard equipment.

## OPTIONAL ACCESSORIES

- Oarlock Sockets
- Oarlock Horns and Pins
- Side Steering Decks
- Exclusive Portabase Seat Clamps  
(Allows easy mounting and transverse movement of portable seats.)
- Livewells available on: Model 1457 and Model 1470C only.
