FISH & SPORT BOATS
TOURNAMENT PRO BOATS
CLASSIC FISHING BOATS
UTILITY BOATS
CANOES

More boat for your money.

Building confidence, one boat a time.

Alumacraft Boats—hand assembled, using the finest materials, for more than 50 years.

HIGHEST GRADE MARINE ALUMINUM
There is none better. An exceptional blend of strength, puncture resistance and long life.

RIVETED CONSTRUCTION
Special heat-treated and hardened aircraft-grade rivets ensure durability and long life. Oversized rivets are utilized in stress areas instead of drilling more holes and doubling up with smaller rivets.

SEAT BASE PLATES
Heavy gauge aluminum base plates under the floor provide a rock-solid platform for seat base mounts.

LIVEWELL LINERS
Protective polyethylene liners with rounded edges to help keep your catch fresh. Some models are further insulated for even greater fish preservation.

CASTING PLATFORM
Specially treated marine plywood platform is covered with high quality Olefin marine carpeting to shrug off weather.

REINFORCED CENTER KEEL
One-piece, preformed, extruded keel extends from bow tip to stern providing a backbone of strength and protection. Engineered with 1/4" solid aluminum at wear points.

FOAM-IN-PLACE FLOTATION
Gas-resistant poured foam fills every crevice, increasing hull strength, quieting the ride and adding stability.

ALUMA CLAD TRANSOM
Treated wood is clad inside and out with thick aluminum to minimize vibrations, quiet the ride and eliminate maintenance.

TRANSOM DOUBLE PLATE
An extra .080" plate riveted to the Aluma Clad Transom adds protection to this critical part of the hull.

ONE-PIECE BOTTOM
The entire boat bottom is made from a single piece of aluminum. A one-piece bottom is stronger and has greater structural integrity than pieced-together bottoms.

SPRAY RAIL
Large Reverse Dispersal Wave Action Spray Rail is contoured to deflect splash down and away. Provides a drier ride even in rough water.

GAS TANKS
Space-saving built-in tanks, standard on many models, are positioned for optimum balance, performance and ride.

HAND HOLDS
Your passengers find one everywhere they need one—in all running positions.

ALUMA-FRAME CONSTRUCTION
Heavy gauge aluminum transverse and longitudinal framing is formed to optimal hull bottom shape. Provides maximum structural support with minimum weight. Standard on most models.

FORWARD LOCKING PEDESTALS
Pedestals can be locked in the forward facing position as well as three others to prevent seats from swiveling while running. When boat is running always sit in the cockpit area, riding in the bow area is unsafe.

2XB HULL

The hull that redefined the standard for durability. Twin aluminum plates run the entire length of the boat bottom. Trophy, Tournament Pro and Phantom models.

TOURNAMENT PRO 175

TOURNAMENT PRO 170 CS

INSTRUMENT PACKAGES
Customized long-life, high-tech instrument packages present detailed information in clear view for greater control and safer boat operation.

URETHANE FINISH
The best finish available—matches current automotive colors. Tough, high-gloss, resists chipping, corrosion and wear for years of brilliance.

We've taken aluminum hull design to a *higher plane.*

Never before has a hull bottom been graced with so much protection. The revolutionary **2XB Hull** features twin aluminum plates that extend over the entire length of the boat bottom—not just under the bow.

Mother Nature doesn't throw rough stuff only at the front of your boat. When you're on plane your bow is out of the water. The entire boat bottom has to endure

brutal waves, shallow rock-filled waters, deadheads and ever-lurking boulders. But it's not only strong, it's also the silent type—as quiet as it is rugged.

The **2XB Hull** adds minimal weight and is coupled with the **Aluma Plate** twin plate bow—you simply can not buy greater protection. You'll find this industry-leading hull design only on Alumacraft Trophy, Tournament Pro and Phantom Series boats. When you run with a **2XB Hull**, you run with the unspoken confidence of a true fishing legend.

STANDARD FEATURES

- No feedback steering
- Tempered glass curved windshield
- Instrument package: speedometer, tachometer, voltmeter, blank gauge
- AM/FM stereo cassette w/two speakers
- Bow casting platform
- Convertible top set with boat
- Concealed top storage
- Grab handles
- Positive locking seat pedestals
- Lockable storage compartment
- Lockable rod storage compartment (7')
- Lockable glove compartment
- Stowable running lights
- Forward battery storage
- Automotive fuse panel
- Bow rails
- Cup holders.

TROPHY 185 additional features:

- Tilt wheel w/dual steering cables (185)
- Horn (185)
- 12/24-volt prewired bow trolling motor panel w/trim switch (185)
- Remote livewell drain (185)
- Master electrical switch (185)
- Ice chest/dry storage (185)
- Two 2-drawer tackle compartments (185)
- Interior courtesy lights (185)
- Accessory socket for spotlight or phone (185)
- Auto bilge pump (185)
- Flush mounted fire extinguisher (185)

OPTIONS

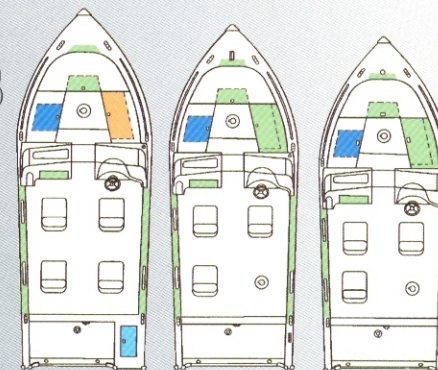

- Factory installed Minn Kota trolling motor
- Lowrance liquid crystal graph
- Bow seat cushions

- Extra seat and pedestal
- Laydown sleeper seat
- Side and aft curtain
- Windshield curtain
- Mooring cover

ALUMACRAFT
BOAT CO.

SWIM/SKI PLATFORM makes boarding from the water safer and easier. (Selected models)

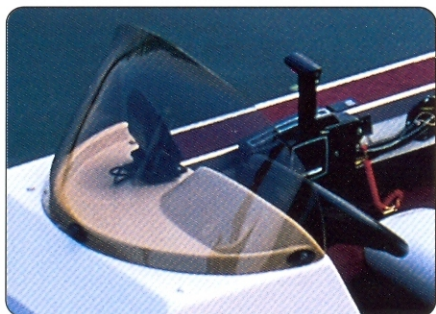

DEEP BOW CUSHIONS convert your bow area into lounging/sun bed. (Trophy Series)

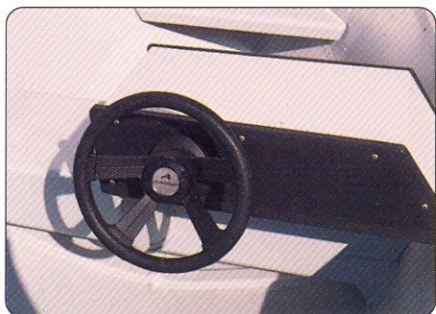

Luxurious new STEPPED CUSHION SEATS with side lumbar support. Available with padded armrests. (Most models)

A must for waterfowl hunters, CAMO SEATS are popular among all outdoor enthusiasts. (most models)

SMOKED WINDSHIELD protects you from wind, glare and rain. (Most console models)

SIDE STEERING CONSOLE allows you to add steering wheel to tiller models. (Value Totable Series)

Professional Alumacraft dealers like Lee Gansen of Drantell Sales & Service in St. Peter, MN can help you select the boat, motor and accessories that are perfect for your kind of boating. And down the road you can count on him to keep your investment in tip-top shape.

LIMITED WARRANTY.

Alumacraft stands behind every boat we build. Each aluminum boat that leaves our plant is warranted to the original purchaser to be structurally sound and free from defects in materials and workmanship. We provide one of the best limited warranty programs available in the industry. This limited warranty is provided with the purchase of every boat or canoe from an authorized Alumacraft dealer. See your dealer for specific warranty and service information.

Photos, illustrations, and data in this catalog were based on information available at time of publication. See your dealer for the most current specifications and warranty information. Prices, dimensions, capacities, ratings, specifications and options are subject to change. Alumacraft reserves the right to make changes without notification or obligation. Specifications calculated using U.S. Coast Guard formulas. All boats comply with U.S. Coast Guard and Canadian government regulations. All Alumacraft boats are NMMA and CMAA certified for compliance with standards for flotation, fuel systems, ventilation, electrical and safety. All ratings comply with the Federal Boat Safety act of 1971.

Some of the equipment pictured in this catalog is optional at extra cost. See your Alumacraft dealer for availability and current pricing.

QUETICO

VOYAGEUR 17

You find them stacked on outfitter's trailers everywhere. They're tough, dependable and they stand up to constant abuse. Alumacraft is America's premier canoe builder. Our flat bottom hull design is more stable and easier to paddle than a rocker bottom. We spot weld the ribs, gun-wales and center seam to eliminate rivet drag and leaks. Stems are made from extra strong .090" gauge solid aluminum and the tie-down eyelet is 100% stainless steel. Simply put, we build them better and it shows.

Alumacraft – the intelligent investment.

ALUMACRAFT BOAT CO.

DOMINATOR • CLASSIC DELUXE • BACKTROLLER

Any species, any place, any time.

You're looking at three of our all-time favorite boats. Always prepared, always dependable, always willing to do more than what is asked of them. Each gives you a different combination of the features of big, pro-class boats—but in a lighter, easy to tow, easy to power, easy to afford package. No other boats at these price levels equal the all-around fishing and performance capabilities of the Dominator, Classic Deluxe and Backtroller. Three very good reasons to put yourself in a new Alumacraft.

Alumacraft—the best catch you'll ever make.

DOMINATOR GS

Shown with optional accessories

NEW SEATS. Thick stepped cushion seats with built-in side lumbar supports, four position locking pedestals.

ALUMA PLATE BOW. A second plate of .080" aluminum protects the bow area.

FULL INSTRUMENTATION.
Speedometer, tachometer, voltmeter

*These are excellent boats for
FOUR STROKE MOTORS!*

AERATED LIVEWELL. Built-in timer automatically recirculates water to keep catch fresh.

DROP-IN BAIT BUCKET. Keeps live bait lively, close at hand, yet out of way.

LOCKABLE ROD STORAGE. Safely stores your extra rods out of harms way.

Redesigned bow area features an expanded casting deck.

CUSTOMIZE YOUR BOAT. Wired and set up for adding optional equipment and electronics.

LUNKER MAG SERIES • FISHERMAN

Now there's more Lunker to love.

•NEW FOR 1998•

LUNKER V16 LTD Mag Series

Shown with optional accessories

NEW TOUGHER HULL. We beefed up the hull thickness to a stronger .080" gauge aluminum.

WIDER BEAM FOR 1998. Now there's even more Lunker to enjoy - 75 inches across in the V16LTD and V16 Magnum Series.

New molded aerated livewell, standard in Lunker V16 and V14 for 1998.

The Lunker and Fisherman have become the most beloved boats in our line. The wide roomy berth, open cockpit, and common sense designs are perfect for the entire family or just you and mother nature. Standard and optional equipment includes: built-in locking rod storage, lockable bow storage, aerated livewell, drop-in bait bucket, and four position locking pedestal seats. For a solid, no-nonsense boat that will give you and your family years of enjoyment, look no further.

Alumacraft—the definition of value.

LUNKER V16 LTD Mag Series with optional console

Shown with optional accessories

DURABLE WEATHER-TESTED CARPETING. Chosen for its superb resistance to sun, water and stains.

PLENTY OF STORAGE SPACE. There's tons of storage space and a locking rod compartment.

**MERCURY
OUTBOARDS**

MAGNUM 165 CS

Open Wide and Say Ahhh.

It's wide and it's deep. It's a true pleasure to fish from. The new Magnums may be the most versatile fishing boats on the water. Whether you're trolling for lake trout, jigging for walleye or casting for pike, the Magnum gives you lots of room to operate and a place for all your gear. The possibilities are endless. Locking electronics compartment and state-of-the-art instrumentation are standard. Seats, gas tank, storage lockers and livewell are all bigger than average. The only thing not big on the Magnum is the price.

Alumacraft — more boat for your money.

MAGNUM 165 CS

Shown with optional accessories

NEW EASY-TO-READ GAUGES, eye level electronics and finger tip master controls.

You don't need a large motor for top performance or a huge rig to tow a Magnum.

RECIRCULATING LIVEWELL. Operates on timer to keep your catch fresh.

NO FEEDBACK STEERING. Reduces steering torque for smooth, responsive control.

LOCKING ROD STORAGE. Securely holds your valuable rods out of harms way.

HUGE GAS TANK. Even the gas tank is big—a whopping 23 gallons!

TOURNAMENT PRO 175 CS

The boat that rocked the industry.

2XB HULL

This is the boat that took the market by storm last year. In it's first season on the water, the Tournament Pro 175 captured the hearts of serious fishermen across North America – so many, in fact, we added special production runs. The double-tough, double-quiet **2XB Hull** set a higher standard for hull design. This year, we're building even more and making slight improvements along the way. We gave it a new console, added an aft electronics compartment and put in the most comfortable seats we've ever sat in. Who says you can't improve upon perfection.

*Alumacraft –
quality you can afford.*

TOURNAMENT PRO 175 CS

Shown with optional accessories

SLEEKER BOW RAKE. Produces a drier, superb handling ride. Tracks easier and straighter especially in rough water.

2XB HULL. The only hull with twin aluminum plates protecting the entire boat bottom.

HANDLES BIG WATER. The Tournament Pro is deeper and wider than other 17' pro class boats

BOW AND AFT LIVEWELLS. There's always one within easy reach.

Rods are kept out of harms way in flush **ROD LOCKERS** that are out of your way.

TOURNAMENT PRO 195 CS

A Purebred Fishing Machine

• NEW FOR 1998 •

TOURNAMENT PRO 195 CS

Shown with optional accessories

SHHHHH. The 2XB hull is so quiet
you won't believe it's aluminum.

HUGE BOW AND AFT LIVEWELLS for keeping
daily limits alive. Recirculating, with timer,
light, baitwells and remote drain.

No pro-style tournament class boat gives you more. This craft was bred for one thing. Serious fishing. The Tournament Pro took the market by storm last season. With its revolutionary 2XB double thick, double quiet hull and sleek bow rake, it's a dream to operate—at any speed. No tournament class boat will give you a drier, quieter, and more responsive ride. Period. So whether you're screaming across open water or tip-toeing along your favorite ledge, there's never any doubt of who holds the reins.

Alumacraft. Compare the boat, then compare the price.

NEW FOR '98. Ergonomically improved console. State-of-the-art instrumentation, eye level mounting of electronics.

ELECTRONICS COMMAND CENTRAL puts everything you need, precisely where you want it, for pinpoint control. Tiller version shown.

2XB HULL

2XB Hull. The only hull with twin aluminum plates protecting the entire boat bottom.

ALUMACRAFT

WHAT POWER!
Handles up to 175 hp.

HAND HOLDS. Even your favorite
water can get downright ugly.

1542 AW

1450 AW

Get ready for non-stop excitement.

There's nothing like the thrill of hauling in a pile of thick slabs. And there's no better way to do it than in the comfort of an Alumacraft built exclusively for panfishing. The swivel seats and armrests let you comfortably work both sides of the boat. A built-in storage compartment keeps lunches and rain gear out of the way. Aerated livewell is within easy reach of both seats. Step into the ultimate crappie boat—step into your new Alumacraft.

Alumacraft—fun you can afford.

•NEW FOR 1998•

CRAPPIE MAGNUM

Shown with optional accessories

STAY ORGANIZED. Bow storage, port and starboard lockable rod storage, aft storage, concealed tank and batteries.

CENTER OF ACTION. Aerated livewell with seat cushion in the middle of the boat.

HOLD ON. Tiller steer rated for 40hp.

ALUMACRAFT
BOAT CO.

PREDATOR 17 AW DELUXE

How To Make A Bass Sweat.

The Predator and Phantom. Every facet of construction, every ounce of material, is devoted to creating the toughest bass boats to ever stalk on water. The Predator features all-welded Alumacraft construction, the Phantom—riveted. Both are light on their feet, can handle plenty of horsepower, and eat up water. The Phantom's 2XB Hull bottom is double plated from bow to stern. If you're looking for a fearless bass boat that loves to work the stumps, logs, rocks and minefields, you found it.

Alumacraft—quality is included in the price.

•NEW FOR 1998•

PREDATOR 17 AW Deluxe
Shown with optional accessories

ALL-WELDED CONSTRUCTION.
This is the finest all-welded bass boat we've ever made.

COMPARE, COMPARE, COMPARE. Compare the hull thickness, the quality of construction, the features, the paint, and above all, the price.

HUGE LIVEWELLS. We give you lots of room, and timed, automatic recirculation to keep those big mamas fresh.

ALUMINUM FLOORS. Impervious to water and sun. Nothing lasts longer.

LOCKABLE ROD STORAGE. Keeps rods within arms reach, but safely out of harms way.

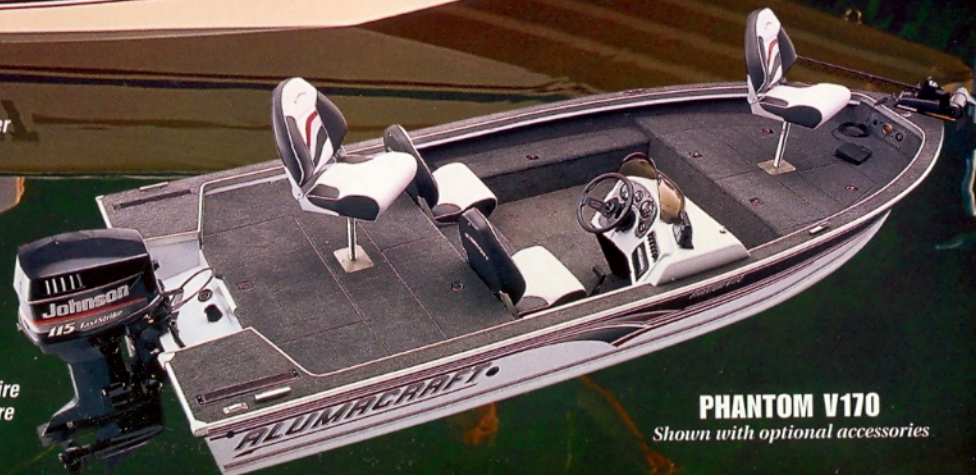

2XB HULL. Double plating over the entire length of the Phantom bottom. Compare it to any other boat on the market.
